

# Audience Comments

"I have used Glenn Saltzman as a trade speaker and workshop leader on numerous occasions at two different associations. Quite frankly, he's the best of all the speakers I've ever encountered. Not only does he possess great platform skills, but he prepares for the group. That level of personalization is rare, but greatly appreciated."

"During the past decade Dr. Glenn Saltzman has conducted over three hundred programs for the National Grocers Association and our affiliates. His sessions continue to draw the largest audiences with the highest ratings.

He is truly a unique individual who has the ability to discuss the interpersonal pressures and stresses of every day life in a manner that engenders understanding, trust, empathy and direction in his audience.

Glenn is no longer just a program speaker. Rather, he is viewed more as a personal resource whom our members look forward to seeing and visiting with in the course of our conferences, seminars and conventions."

"Dr. Saltzman delivers highly spirited presentations with a very pointed message which have been relevant to our groups.

He has a very effective style of presentation in which he uniquely blends the subject matter at hand with tastefully selected humor.

His style and delivery would be beneficial to any group seeking an inspirational, motivational, or uplifting message."

"We have used Dr. Glenn Saltzman at four different banks I have headed to lead classes for Senior Management in several areas.

Dr. Saltzman's warm rapport with his audience is without parallel. His communication skills, profound intelligence in his subject matter, and delivery of that material is excellent.

We look forward to further engagements with Dr. Saltzman."
