Happy New Year!

I just finished overhauling my web site and hope you will visit it "to learn and to become a better person." Dan Mah is my web master, so if you ever need someone to help you with a Web Site, he is your man danmah@telus.net. Use the Navicon (three parallel lines) for the menu or use the menu at the bottom of each page. I have new stories, pictures and tributes. If your picture isn't there, I don't have it or didn't have enough room. www.drglenn.net

Ruth, Harold and I hope you have a great 2017.

Warmly, Glenn

My father use to say, "If you want to be successful, do what you say you are going to do. And, if you want to be wildly successful, do it early. " That was/is good advice.
