Ruth and I had the most interesting and unusual weekend! It started with a Ronnie Milsap concert (a birthday request by Ruth). A packed house and he played most of his 40 #1 hits! Ruth knew most of them! Then on Sunday, we attended church services at Flora-Bama, a notorious bar, along with 1100 others. The crowd was so large (2 services) that we were seated in the Bra Room...you can just imagine (or maybe not) what it looked like! The minister said, "Today, I'm probably the only minister in the U.S, who will say, 'Welcome to all of you in the Bra Room!'" He stood in front of a Jack Daniels sign! The message was great and I must admit, the thought crossed my mind that Jesus went to some unusual places too. Following the service, the Galloway's entertained us at the Pensacola CC. Top All of That!

We had the Boyden's and Fenders's over the other night with some new friends from our condo. It turns out that the Boyden's, and our guests from Green Bay, had all Attended the Same Elementary School , but had to come to our place to meet...small world!

The pictures are of: a bay and the Inland Waterway from our back deck; Ruth on our white sand beach; and GGson Nicholas Alan, sporting a mustache like his grandpa! Harold Alan didn't make this issue, but will the next! He has been a good dog! We love all of you!

Ruth and I support sensible gun laws...assault weapons should be banned from use by public.
