

# The RGH Report

A busy week for us. It all started with a Championship FB game party for several golf couples, only to discover when they arrived that we didn't have ESPN. Luckily, none of them seemed to care and we enjoyed conversation rather than FB. It wasn't like it was an important OSU game!!

Had dinner at the Saylor's home (r) in Fountain Hills with the Clements. The Fountain at the left erupts every thirty minutes in two stages (330 & 560 feet) which can be seen from their patio.

Sherry and Dave Joy stopped by for a night on their way to CA and hiked South Mt. with us. Their OH License plates were only the second OH plates we have seen in the five winters we have spent west of the Mississippi River.

Our son, Jeff, his wife Sally, and their son, Dan, visited for five days. We hiked Superstition and South Mt. Trails, shopped in Cave Creek, played golf, ate "In and Out" burgers and Mexican food and swam in

the pool. Great week! Next time we see Dan, in May, he will be Dr. Dan.

The demand to have pictures in **The RGH Report** has been so great that from now on, there will be a charge of \$23 to have your picture included.

Our friend, Jane Fender, returned to her home after 68 days in the hospital. Great going Jane! She has really put up a great fight, with special assistance from her nurse, Jack.
