

# The RGH Report

- We are in our last week in AZ. Next Monday, we will be driving to Pensacola, FL to visit friends before returning to OH.

- Our niece, Judy, who has been camping in Apache Junction, has been able to share lots of trips with us the past few weeks.

- The Myers” stopped by for dinner (Picture at right.)
- Vicki and Sandy visited us en route to CA to visit friends. We spent a day in the Tonto National Forrest learning about desert plants and animals. (Pic below)
- I have been walking 18 holes twice a week and my step counter reports that results in 14,000 steps!
- Ruth got me a **Zepp** device that tells me about my golf swing path and speed. Jim Myers predicts it will mess me up. So far, he is right...although I finally broke 90 (87) on this long course (6300 yards) we play.
- Canadian golf friends, Kyler and Cameron, hosted a party featuring Roger’s favorite movie, **Maltese Falcon**. Roger and Harley talk about old movies while we golf...it is no wonder we lose concentration and walk so many steps. Paul, another of those Canadians, drives a cart (400 steps). Other golfers, Jack and Jean are serious...Jean shot 76!!! Lastly, we are happy to welcome Dan Sibel back to rehab in AZ.

Anne, Glenn, Harold, Tom, Kathy & Ruth

After having red hair for 70 years, err 80 years, I just discovered that redheads are known around the world as “Gingers.” No one I know has heard of that before, or at least have never shared that with me. Redheads here say they get teased about being “ginger.”

Our MI friends, Deb and Roger, gave us a going away party during this last week. We have made such great friends here. (Picture below)
